

Join Moving Image Preservation of Puget Sound for Home Movie Day 2018!

Sunday, October 21st, 230-430 pm, at the Northwest Film Forum

MIPoPS loves HOME MOVIES!

Home Movie Day is a celebration of amateur films and filmmaking held locally and across the globe. On Home Movie Day, we recognize the value of each person's ability to tell their own stories. We celebrate the democratization of filmmaking and of recording our personal histories. We laugh at seeing ourselves in the bathtub as a baby and we cry hearing the voices of loved ones who have passed. We excitedly shout, "I remember that!" as our stories come to life again on the screen. Home Movie Day is an opportunity to watch, talk about, and take care of home movies! Join Moving Image Preservation of Puget Sound for an "Antiques Roadshow" style event, where film and video experts can answer your questions on how to protect and preserve your home movies! **We will not be digitizing any film or video at this event.**

Join MIPoPS at the Northwest Film Forum for:

- "Ask an Audiovisual Archivist"! Bring your film or videotapes down to talk to a film or video expert about format identification, basic preservation and conservation actions, and digitization options! No appointment necessary. Attendees can expect to spend between 10/15 minutes with one of our audiovisual experts. **We will not be digitizing any film or video at this event.**
- Moving Image Discovery Station! Check out our collection of film and video formats from over 100 years of film and video history. Chat with an Audiovisual Archivist or reminiscence over obsolete formats!
- Watch home movies on the big screen! We'll be screening home movies from the coast of California to the lakes of Wisconsin, all set to music. Grab your popcorn, get comfortable, and enjoy!
- Take home a swag bag including zines on audiovisual and digital preservation, a list of local resources for film and videotape digitization, stickers, and much more!

For more information, message us on Facebook or send an email to info@mipops.org
